PROFESSIONAL SUMMARY

Mobile App Developer (Flutter) with experience in building Android & iOS apps, API integration, real-time features, and payment systems. Experienced with FastAPI, Firebase, and scalable app architecture.

Work Experience

Sparktech Agency | Jr. Flutter Developer

Dhaka, Bangladesh | May 2025 – Present

- Developed and maintained Android & iOS applications using Flutter, Dart, Riverpod, and GetX.
- Integrated Firebase services, REST APIs, and WebSockets for authentication and real-time features.
- Optimized app performance and collaborated with design and backend teams to deliver production-ready solutions.

Technologies: Flutter, Dart, Riverpod, GetX, Firebase Authentication, FCM, REST APIs, SharedPreferences, In-App Purchases

IRD Foundation | Flutter Developer Intern

Dhaka, Bangladesh | Jan 2025 – Apr 2025

- Developed pixel-perfect Flutter UI screens and improved AI-generated designs for better accuracy and user experience.
- Built offline-first features using local databases and managed data storage with SQLite.
- Performed application testing, identified issues, and maintained testing logs to ensure app quality.

Technologies: Flutter, Dart, GetX, SQLite (Sqflite), Local Database, AI Tools, Cursor.

Technical Skills

- **Programming Languages:** Dart, Python, C/C++, Java, Kotlin
- **Mobile Development:** Flutter (Android & iOS), Riverpod, GetX, Google ML Kit (OCR), Platform Channels
- **Backend & APIs:** FastAPI, REST APIs, WebSockets
- **Databases & Storage:** PostgreSQL, Cloud Firestore, SQLite (Sqflite), Hive, SharedPreferences
- **Firebase & Integrations:** Firebase Authentication, Cloud Messaging (FCM), Google Maps, Stripe, In-App Purchases
- **Architecture & Testing:** Clean Architecture, Feature-First Architecture, Dependency Injection, Unit Testing
- **Tools & Platforms:** Git, Postman, Android Studio, VS Code, Xcode, Figma, Cursor AI tool, Antigravity

Projects

Ways2Shop – On-Demand Service Marketplace App ([App Store](#), [Play Store](#))

- Developed a multi-role marketplace platform connecting customers with service providers.
- Implemented subscription plans, in-app purchases, Stripe payments, and real-time chat using WebSockets.
- Integrated Google Maps for location-based booking, provider discovery, and service tracking.

Tech Stack: Flutter, Dart, GetX, WebSockets, Stripe, In-App Purchases, Google Maps API

Creepy Shorts – Live Streaming Movies & Shorts App ([App Store](#), [Play Store](#))

- Developed a streaming platform for movies and short videos using Bunny.net and server-based content.
- Implemented guest mode and user authentication system for flexible user access.
- Integrated Apple and Google In-App Purchases for subscription-based premium content.
- Added video sharing functionality with deep linking support for external platforms.

Tech Stack: Flutter, Dart, GetX, Bunny.net, In-App Purchases, Deep Linking.

Education

Bangladesh University of Business and Technology (BUBT) | Dhaka, Bangladesh

B.Sc. in Computer Science and Engineering | June 2025 – Present

Languages: English (Fluent), Bengali (Native)
